Addis Ababa

WHO WE ARE

MANDATE

The United Nations Department of Safety and Security is responsible for providing leadership, operational support and oversight to the security management system, ensuring the maximum security for staff and eligible dependents as well as enabling the safest and most efficient conduct of the programs and activities of the United Nations System.

HISTORY OF UNDSS IN ETHIOPIA

The United Nations Department of Safety and Security (UNDSS) was formally established on 1 January 2005. UNDSS was established in Addis Ababa, Ethiopia, as UNSECOORD, in the year 2000. Since that time, the Department has been dedicated to performing the following functions:

- Support and enable the effective conduct of United Nations activities by ensuring a coherent, effective and timely response to all security-related threats and other emergencies;
- Ensure effective risk mitigation through the establishment of a coordinated security threat and risk assessment mechanism within the framework of a common, system-wide methodology;
- Develop high-quality, best-practice security policies, standards and operational procedures across the United Nations system, including the appropriate degree of standardization;
- Support implementation and monitor compliance with those security policies, standards and operational procedures;
- Ensure cost-effective provision and employment of security personnel by taking advantage of economies of scale and through centrally directed recruitment, selection, training, deployment and career development.

WHAT WE DO

Type of intervention	Partners	Main geographic focus (Regions)	Beneficiaries
Provision of Safety and Security services	All UN Agencies, Funds and Programs; Embassies; INGO partners; Host Government	Throughout Ethiopia	All staff and their dependents
